To We learn that papers are being circulated in this city and the neighboring towns for the purpose of obtaining names to petition the General Assembly to passa strin g at law in regard to Rail Rose Companies, in such manner as Rowland G. Hazand shall dictate. As we stated a few days since, Mr. Hozard is carrying of a violent and most vindictive war against the Stonington Rail Road Company, pon the pretonce that it is for the publicated, while actoully and in fact it is mirely to gratify his own bitter and malinum spirit, and simply for the purpose of being revenged upon that Corporation, course he has had a difficulty with them, a difficulty of his own creation. He be spared no pains of expense-for such while nature when he is determined, if possole, to accomplish his wishes-to poison he public mind, and to eprend his version of the case broadcast over the State accompanied by a peculiar certificate, which we have already published. We have published this certificate, together with the explanation of the extraordinary orcumstances under which he obtained it; the Stonington Rail Road Com. pany am the other Rail Road Compathes base made no efforts to counteract his influence, whatever it may be. Therefore, whatever the people, especially in this part of 116 State, know about the matter, they have obtained by means of the garbled stalements of Mr. Hazard, and his particular friends, all of which should be taken with a very great degree of allowance. We trust that none of the people of this County will sign any of these Petitions to the Assombly, because they little know what they are about in so doing. All Rail Road Companies are baying a hard time enough, manufactust; and if Mr. Hazard's selfish pro-CHAMPAG and be carried into offect, they Colons, Liously cripple every Rail Road in great vary within their reach. At least, let in one sign any of these petitions until they I) have carefully investigated the whole mater, and clearly understand the exact nature of Mr. Hazard's war upon Rail Road Companies; then, if they think that he is right, why, of course, we have no more to say .-The petitions and the stories of Mr. Hazard means represent the case as it is. We will venture to say that there are not twenty-five men in the County of Newport who would Bustain Mr. Hazard in this matter, if they entirely understood it. We have taken the pains to bear and read all that Mr. Hazard he, said upon the subject, and then came to our own conclusion; and we have never trom services upon the subject until after giving customer it a thorough investigation.

PARTICULAR NOTICE.-The person who took a volume of Keats' Peems, Little, is own & Co's edition from the Daily News Office, on Saturday last, in the absence of the editor, is requested to return the same immediately. In this connection, we must request those who visit our office, especial-I, when we are not present, not to take books, papers, &c. therefrom, at least with out notifying us of it.

GEN. SCOTT ON THE WAR .-- General Scott has been expressing his opinion touching the Eastern War. He says :-

The allies committed a great blunder in delaying the attack upon Sevastopol as long as they did; that immediately; after the raising of the siege of Silistria they should have attacked Sevastopol, at which time there was a comparatively small force in the runaway engine was found in waiting, the Crimea; that the allies cannot take Sevistopol unless they recleve reinforcements, gring them a superiority of force to the extent of from thirty to lifty per cent.; that the Russian regular soldiers are the best ope in the world for defense; they never but perish, unless ordered to retreut .lid thinks the alifes labor under a great distantage in having two commanding golerals; that the read to victory is through unity of design. . The General farther said. that the allies could not re-embark now witnest immense loss of men and all the merials of war in camp, except the wea non in their hands.

ASPEAKER'S POWER -- Last Friday eyening in the course of Mr. Chapin's lecture, among other things of the present day which he was subjecting to a playful but withring irony, he spoke of the "bonnets which are never able to keep pace with thei wearers." It was amusing to notice thaten the instant, nine-tenths of the ladies preent involuntarily grasped the front of ther bonnels with both hands and gave then a twitch forward-a useless effort, however, for the milliners had made them the Synod that the lifts of D.
